

Mt. Harris, -
Dec 22. 1940

Jo.

You probably won't get over me writing a letter, but you know miracles do happen. ~~you know~~

Accompanying this letter you will find a little something that Santa is sending you. He and I had quite a talk on what he should send you and finally decided on that. I hope you like it.

Thanks a lot for the present it was very nice. Also for the "Life" I think it was a very good choice and I believe that the folks thought the same.

Most of the college "kids" are home and most of the boys that are either in the army or C.C.C. are all home too. So you can just imagine how many happy folks there are just now as most of them came in either yesterday or this morning. Francis "Monk", Purcell, Gene, Manuel, Orville and many others are all here so just think what a break for the girls.

As for myself I still spend most ~~th~~ my time on the usual things. There is only one thing wrong and that is that the girls and

I don't spend enough time
together ~~and~~ ^{no} it is not my fault
as I am willing I guess that it
is just ~~me~~ something about me

Skating is just fair it
hasn't been very cold and generally
about midday it gets so warm it
thaws so you can just imagine
what that does to the ice. There
is hardly any snow.

I can't think of anything else
to tell you that the folks
haven't already told you so
I think I'll just call it a
day.

I want you to have a
real good time of this Christmas.
Just raise one hell of a time.

Merry Christmas and a very
merry merry merry one from

Your brother

Pito

Sonny's
latest picture.

Don't mistake
it for Clark.

Wally's
Go on let
Jocil kiss
it.
