

One of America's most notable examples of pointed Gothic architecture, the Chapel of Duke University occupies a place at the center of the campus to tower above the surrounding academic structures. The chapel is noted for its 50-bell carillon, its large pipe organ, its beautiful stained glass and ornamental sculpture in stone, wood and metal.

Jo.  
 Didn't have time to write this past week. I'm enjoying a week-end in Durham. Did you enjoy your stay at home? We just made a tour of the campus. One of the most beautiful you will ever see. As ever
