Dear Sis

In your latest letter, dated March 24, you mention the name of a movie in connection with us. You are partly right for we have been to the front, and have come in contact with the enemy. As you can see by this letter we came out on top this time!

Regarding the package forget it for the time being.

The sole purpose of this letter is to let you know of my well being, and as there isn't much room for anything else I will let it go at that. But soon as we get to where I can get some stationery I will write a big long letter. So until then, I remain,

Your brother

Rito.
